

Who is not looking for something new to offer in terms of destination when it comes to MICE projects?

## MADAGASCAR

might be just what you need for your client or your next project.

After many years of experience with **themed groups** and upscale FIT and seeing the rising demand of **undiscovered** and off the beaten track destinations for **incentives**, we have joined forces to create:

**Akory** DMC

**AKORY DMC!!!**

Our agency is based in the Madagascar capital of Antananarivo and aimed to create and manage unique travel experiences for **incentives and meeting** groups as well as luxury FIT's throughout our Island. We are a proud member of the **Gondwana DMC** network.

Be it **teambuilding** activities for your delegates, themed dinners and entertainment, brainstorming conferences, our company offers an umbrella of activities to suit an unforgettable experience to be told many times over!

The Red Island is an unusual destination for its mosaic of cultures and considered as THE hotspot of the world's biodiversity.

### MADAGASCAR - a continent on its own!

Our **multilingual** (English, German, French and Malagasy) team will gladly assist in designing your **tailor made incentive program** according to specific requirements and budget.

Thanks to its favourable weather **all year round** and **daily flights** from European, African and Indian oceans destinations – Madagascar is the perfect host for your next group!
