

Meetings & Incentives

*A special hug from Holland
More than 700 kilos of Dutch Tradition!*

Cow cuddling workshop

We all know the Netherlands for their clogs, tulips, cheese, windmills and of course the cow. Normally you would only see these animals from a distance, but now you have the chance of approaching and even hugging them. A true experience which you will remember for the rest of your life!

Surveys show that this impressive animal of more than 700 kilos commands respect and inspires confidence with people. Cuddling a cow has a soothing effect on people and therefore is often used as a method to distress and relax. A perfect activity to relax in these busy times.

You will be welcomed at the farm with a cup of coffee or tea. Every person will be given an overall to protect the clothes. After a short introduction and explanation of how to approach these animals, you will experience yourself how wonderful cuddling a cow really is! Weather permitting this will be done outside, otherwise inside in the stables. Enjoy!

General Conditions

Group size: from 10 to 40 persons
Operating dates: all year round
Assistance: available in several languages
Location: North of Amsterdam
