- Access to over 50,000 aircraft worldwide.
- First class reputation, depended on by governments and major multinational corporations worldwide.
- Not a franchise, each office adheres to the same set of meticulous standards.
- Carbon neutral for over 4 years, offsetting all operation emissions.
- Expert knowledge, in all aspects of aircraft chartering.
- Award winning staff training programmes, received from ACS directors and outsourced aviation professionals.
- Branding opportunities, supplied at cost price.

EVENTS CHARTERS

NOT JUST TRANSPORTATION, BUT THE BEGINNING OF YOUR EVENT

ACS gives event organisers the opportunity to extend the life of their event, with a full range of options available to enhance their guests' airport and in-flight experience.

MICE

Account managers specialising in exhibition and conference travel, flying delegates and sponsors to a variety of Meetings, Incentives, Conferences and Exhibitions (MICE) across the globe.

PRODUCT LAUNCHES

ACS gives companies the tools to decorate the aircraft and airport in the style of their product and brand, making the most of the experience.

BESPOKE EVENTS

For all celebrations, from birthday parties to weddings, ACS enables all guests to travel together, making the event more enjoyable for everyone.

AIRCRAFT LEASING

ACS can lease aircraft for the duration of the show, enabling the event organiser to dictate numerous flights, access unlimited locations, oblige fluctuating passenger numbers and accommodate last minute additions.

RECENT EXPERIENCE

- In 2009, ACS flew 80 guests from London to Cork for a wedding, enabling family and friends to travel together.
- In 2010, for one car launch in particular, ACS flew 120 passengers from London to Tenerife, where the client utilised each opportunity to promote their new model and brand.
- In 2010, ACS coordinated the air travel of 125 passengers for a celebrity birthday party in Ibiza, customising the on-board amenities to reflect the party atmosphere.
- In 2011, ACS moved 130 passengers for a product launch of a major household brand.

ACS helps travel companies with seasons of high demand, group travel coordination and bespoke private aircraft selection.

TRAVEL MANAGEMENT COMPANIES (TMCs)

ACS is the one-stop-shop for TMCs looking to charter a private aircraft on behalf of their clients, with a full range of aircraft to choose from.

Already a preferred supplier to many leading organisations, ACS is accustomed to tailoring all the arrangements, from the booking process to the onboard amenities in line with their current business style.

TOUR OPERATORS

ACS are experts in assisting Tour Operators procure aircraft for their Inclusive Tour (I.T.) flying requirements. With the ability to deliver on demand, individual charter schedules and dedicated aircraft for entire seasons, ACS enables businesses to accommodate extra capacity, no matter how high the demand.

RECENT EXPERTISE

On behalf of 2 major tour operators, throughout the Summer months of 2009 and 2010, ACS performed 74 rotations from the UK & Ireland to Sharm el Sheik, Egypt.

In 2010, during the ash cloud travel disruptions ACS chartered, on behalf of a major TMC, a number of flights for major corporations, including hundreds of staff for a pharmaceutical company to New York and Las Vegas from the UK.

Since October 2010 ACS, as part of a preferred supplier agreement, has chartered numerous aircraft for a TMC, moving between 50-60 passengers a month.

SPORTS CHARTERS *TAKING YOU TO THE HEART OF THE ACTION*

Clients can trust in ACS, whose account managers have provided charters for an impressive array of athletes, supporter clubs, VIP guests and corporate sponsors.

TEAMS

- Nutritionally balanced menus.
- Fast track transit through airport terminals.
- Schedules built around rest breaks.
- Access airports closest to hotels and tournaments.
- Privacy and security.
- Reduced time in transit.

SUPPORTERS

- ATOL protected solutions.
- Flight representation at boarding, in-flight and on departure.
- Competitive prices.
- Access to numerous aircraft flying simultaneously.
- Flight support team, directing baggage, flight attendants, check-in & slots.

EXECUTIVE & CORPORATE SPONSORS

- Corporate sponsor branding opportunities.
- Gourmet food and fine wine.
- Aircraft configured for on-board meetings or entertainment.

RECENT EXPERIENCE

- Provided charters for 85% of English Premiership football clubs.
- 4 out of 5 winning Formula One racing teams in the last 10 years.
- PGA and European Tour Golfers
- European Club & National Football Teams
- European Club & National Rugby Teams
- ATP & WTA Tour Tennis Professionals
- WWE logistics
- Dubai World Cup

ACS has worked with a variety of artist management companies across the world, ensuring artists, equipment and crew all arrive relaxed and refreshed.

COMMERCIAL AIRCRAFT

Access to over 50,000 aircraft worldwide, available with up to 580 seats and in numerous configurations, these aircraft are the ideal solution for artist and entourage travel.

Great for hectic schedules and long-haul distances, many are fitted with bedrooms and state of the art entertainment suites.

The perfect solution for gruelling world tours, giving musicians longer rest breaks, whilst their sets and stages are transported separately.

EXECUTIVE AIRCRAFT

ACS has a wide selection of helicopters and light jets perfect for quick transfers from the airport to the venue, enabling easy access to city centre gigs or rural festivals.

Experts in supplying a full range of charter solutions, from last minute aircraft for one off concerts, to more complex world tour charter schedules.

COMBINATION CHARTERS

ACS can select aircraft that are suited for moving cargo and passengers together, saving time, money, and hassle, whilst ensuring equipment arrives safely.

RECENT EXPERIENCE

2009, ACS performed a European tour for a British rock band, moving 25 passengers (artists and entourage) with their equipment.

In 2010 ACS flew a high profile rock band to be able to play four big festivals in 2 weeks on a combi ATR 72 aircraft, able to carry 2,000 Kgs of their own equipment and 20 passengers.

In 2010 a world renowned artist was flown on a 17 sector trip around Europe – moving him and his entourage on a 19 seat Fairchild Metro.

EMERGENCY RESPONSE

ENSURING HELP GETS TO THOSE IN NEED FAST

ACS arranges emergency response charters in the aftermath of natural disasters, political unrest and hostile situations.

PASSENGER EVACUATIONS

Relied upon by governments, multinational companies and relief organisations worldwide, ACS provides fast and secure passenger movements to remove foreign nationals, staff, and government officials from hostile or disaster situations

SEARCH & RESCUE TEAMS

ACS has vast experience ensuring search and rescue teams, and their equipment, are deployed as close to the affected areas as quickly as possible and in optimum time.

CARGO RELIEF CHARTERS

ACS has a long and proud history providing humanitarian relief charters. Our sustained knowledge and experience has led to our appointment as the official air charter provider for a number of governments and highly recognised charities across the globe.

RECENT EXPERIENCE

In 2010, following the Earthquake in Haiti, ACS was able to charter 80 British search and rescue workers, their dogs and equipment into the region within 19 hours of confirmation.

Following the earthquake near Christchurch, New Zealand in 2011, ACS arranged American governmental aid flights carrying search & rescue teams, as well as 65 tons of relief cargo.

In 2011, ACS evacuated over 6,000 foreign nationals out of Libya & 2,000 out of Tunisia during the revolt, providing safe and secure passage across Europe, the Middle East & Asia.

Following the earthquake & tsunami in Japan in 2011, ACS performed numerous charters out of the region, on behalf of various government agencies and multinational corporations.

As a result of the political unrest in the Ivory Coast in 2011, ACS evacuated over 500 passengers from the country.

ACS has extensive experience moving key workers all over the world, enabling a wide range of companies to expand and develop, often into difficult to reach locations. Travelling into such regions can be complicated and require meticulous planning. ACS ensures passengers arrive safely and as quickly as possible.

RECENT EXPERIENCE

In 2009, over 7,000 passengers flew into and out of Iraq and Afghanistan on ACS chartered aircraft.

In a 13 month period between 2010 and 2011, ACS has also arranged charters into Mogadishu, Somalia, moving more than 2,000 personnel over 10 rotations.

2010, ACS coordinated 8 charters, of over 200 key workers into Greenland for crew movements.

Every year ACS coordinates between 6 and 12 charters a year for a North Sea vessel crew change, moving employees between Aberdeen, Scotland and Sumburgh, Shetland.

PRIVATE AIRCRAFT AND HELICOPTERS

Air Charter Service offers an array of private jet, light aircraft and helicopter charter solutions. These aircraft provide effective and comfortable travel, to suit a wide range of requirements.

Light aircraft are often used as air taxis, transporting passengers quickly over short distances to either their final destination or connecting flights. They are more cost-effective than almost any other form of air transport and a much quicker alternative to travelling by any other method.

Private jets offer the same service as light aircraft, but with improved performance capabilities and heightened comfort. They are the ideal short- and medium-range luxury travel solution.

Helicopters enable quick point-to-point transport to and from destinations with smaller airports and those locations which are otherwise unreachable by air.

REGIONAL JET AIRLINERS & TURBOPROPS

These aircraft offer clients convenient and cost-effective means of transport for groups of people with a range of requirements. This category typically features aircraft with 20–100 seats.

Turboprop aircraft use propeller-driven engines, delivering superb fuel efficiency. They are often a cheaper alternative to jet-powered aircraft of similar capacities. The largest turboprops can carry up to 78 passengers, but more typically offer 30–50 seats. Owing to their reduced fuel burn and slower flying speeds, turboprops are ideal for operating out of regional airports and for journeys which involve 2–3 hours' flying time.

Regional jet airliners can seat up to 100 passengers over short- and medium-haul distances. They feature fast cruising speeds, as well as the ability to land on shorter runways, compared with the majority of larger aircraft.

VIP AND EXECUTIVE AIRLINERS

A VIP or executive airliner, chartered by ACS, can deliver ideal solutions for both business and pleasure. Their performance capabilities differ across the range of models available, affording flexibility and choice to those who charter them.

VIP airliners offer the ultimate luxury travel option. Often referred to as 'flying palaces', these aircrafts' interiors are designed to provide the utmost comfort in which to travel and the perfect environment in which to unwind.

Executive airliners are configured to accommodate larger numbers of corporate personnel, in first- or business-class surroundings. They allow passengers the space to work and relax, while maintaining the ability to transport greater numbers of people than smaller jets.

NARROW AND WIDE-BODY AIRLINERS

Air Charter Service is the expert in arranging narrow- and wide-body airliners to deliver perfect solutions to clients who wish to provide a flexible means of travel for larger groups of people.

Narrow-bodied aircraft are the most common form of air transport, typically with 100–235 seats. The advantages which they provide over their wide-bodied counterparts are increased fuel efficiency and the ability to operate out of smaller airports, but they lack intercontinental range.

Wide-bodied aircraft are defined by having at least two seating aisles. They have large passenger and luggage capacities, providing those who charter them with the ability to arrange seats in different class options, at cost-effective prices. They are most effective over medium- and long-haul distances, with seating capacities of 250–580 – the most of any aircraft available.
